Nationality: British Mob: 07747 466 810
Marital Status: Single adam@ambsoftwaresolutions.com

Profile

Versatile Microsoft certified professional with 10 years plus experience in the industry. Ranging from developing bespoke applications to commercial products used worldwide. Extremely client focussed with a positive and friendly demeanour which has often helped clients bridge the gap between the technical and the non-technical. A 'team player' who understands that successful projects are not only dependent on an individual's skill-set but the result of a good collaborative work ethic. Through a programme of self-funded home study have achieved several Microsoft accreditations with more planned for the future.

Taken part in a variety of large scale migration projects such as mainframe to 2-tier, through to n-tier using a distributed .NET architecture. Significant amount of database development including database design, stored procedures, triggers, cursors, views and query optimisation. I have worked both in the role of application developer, designing and writing the presentation layer, using WinForms, ASP.NET, Web Parts, etc.; and component developer, writing middle tier shared assemblies to provide a Services Interface, Business Services, Object Services and Data Services for our applications.
